

AMERICAN CHEMICAL SOCIETY

Science That Matters.

Recently Published Articles:

- Experimental Study of Wave Propagation Dynamics of Multicomponent Distillation Columns, Jack Ting and Friedrich G. Helfferich, Yng-Long Hwang, Glenn K. Graham, and George E. Keller II
- Tautomerism and Octane Quality in Carbonyl-Containing Oxygenates, Michael Golombok
- Kinetics of the Homogeneous Catalytic Hydroformylation of 1-Octene in Supercritical Carbon Dioxide with $\text{HRh}(\text{CO})[\text{P}(\text{p-CF}_3\text{C}_6\text{H}_4)_3]_3$, Daniel R. Palo and Can Erkey
- Testing the Efficacy and the Potential Effect on Indoor Air Quality of a Transparent Self-Cleaning TiO_2 -Coated Glass through the Degradation of a Fluoranthene Layer, Virginie Roméas, Pierre Pichat, Chantal Guillard, Thierry Chopin, and Corinne Lehaut
- Extended Kalman Filter-Based Nonlinear Model Predictive Control for a Continuous MMA Polymerization Reactor, Sung-Mo Ahn, Myung-June Park, and Hyun-Ku Rhee
- Nonequilibrium Cell Model for Packed Distillation Columns—The Influence of Maldistribution, Arnoud Higler, R. Krishna, and Ross Taylor
- Prediction of Octanol-Water Partition Coefficients Using a Group Contribution Solvation Model, Shiang-Tai Lin and Stanley I. Sandler
- Effect of Fluid Properties on Two-Phase Froth Characteristics, Dingwu Feng and Chris Aldrich

INDUSTRIAL & ENGINEERING CHEMISTRY RESEARCH

Editor-in-Chief: **Donald R. Paul**, University of Texas, Austin, TX

For industrial chemists and chemical engineers, *Industrial & Engineering Chemistry Research* is the reliable and current source of new fundamental research, design methods, process design and development, and product research and development.

This state-of-the-art journal contains original studies in the areas of:

- Applied Chemistry
- Kinetics, Catalysis, and Reaction Engineering
- Materials and Interfaces
- Process Design and Control
- Separations
- and General Research

Focusing on new areas of science and technology, *Industrial & Engineering Chemistry Research* now features "Commentary," a new section that presents critical and selective views on key issues by leaders in the field. In the past year, two "Festschriften" have honored the work of Roy Jackson (Volume 38, No. 3) and George E. Keller (Volume 38, No. 10). Timely review articles, research notes, correlations, and correspondence are also published throughout the year.

To Order Call Toll-Free **800-333-9511 (U.S. & CAN) or 614-447-3776**

ORDER FORM

Method of Payment:

- Check (made payable to **American Chemical Society**)
 Credit Card: AmEX MC Visa

Acct. No. _____ Exp. _____

Signature _____

ACS Member No. _____

Name _____

Address _____
 Home Business

City _____ State/Province _____

Zip/Postal Code _____ Country _____

e-mail _____

(required for all Web Edition orders)

Yes! I would like to subscribe to **INDUSTRIAL & ENGINEERING CHEMISTRY RESEARCH** Volume 39, 12 Issues

Print ISSN: 0888-5885 / Web Edition ISSN: 1520-5045

Please enter my subscription as follows:

- ACS Member Rate: Web Edition*: \$50 Print Edition: \$103
 Nonmember Rate: \$253 (Print)

Prices are in U.S. dollars for North America only. Outside North America, add \$101 shipping and handling for print subscriptions. Add applicable tax (print subscriptions only) in CA, DC, MD, and OH; in Canada, add 7% GST.

*ACS Web Edition Rates are a benefit of membership in ACS and available only for ACS Members.

For institutional rates please call 800-333-9511 (US and CAN only) or 614-447-3776.

- Please send me information on how to become a member in ACS. Benefits of ACS membership include a print subscription to **Chemical & Engineering News** and exclusive member rates on all ACS Web Editions.
